

# Add New Oracle Home DOMU (VM)

Olá, nesse artigo iremos abordar as etapas necessárias para adicionar um novo Oracle Home a uma VM (DOMU) específica no Exadata.

## Links úteis

### [ADD DATABASEHOME](#)

1 - Navegue até o diretório do utilitário oedacli:

```
cd /EXAVMIMAGES/onecommand/linux-x64
```

2 - Inicie o utilitário:

```
./oedacli
```

3 - Carregue o arquivo de configuração do OEDA utilizado durante o deploy da DOMU desejada:

```
oedacli> load file name=/EXAVMIMAGES/onecommand/linux-x64/ExadataConfigurations/DBAHER0-exa.xml
```

```
SUCCESS - file loaded OK  
Customer : DBAHER0 - DBAHER0
```

4 - Adicione o novo Oracle Home a DOMU (VM) desejada:

```
oedacli> add databasehome owner='oracle' dbversion='12.1.0.2.170418'  
dbhomeloc='/u01/app/oracle/product/12.1.0.2/dbhome_2' volumesize='25G'  
where clusternumber=2
```

5 - Salve as ações:

```
oedacli> save action
```

6 - Faça o merge das ações:

```
oedacli> merge actions
```

```
processMerge  
processMergeActions  
Merging Action : add databasehome owner='oracle'  
dbversion='12.1.0.2.170418'  
dbhomeloc='/u01/app/oracle/product/12.1.0.2/dbhome_2' where  
clusternumber=2  
Merging ADD DATABASEHOME  
Action Validated and Merged OK
```

## 7 - Faça o deploy das ações:

```
oedacli> deploy actions
```

```
Deploying Action ID : 2 add databasehome owner='oracle'  
dbversion='12.1.0.2.170418'  
dbhomeloc='/u01/app/oracle/product/12.1.0.2/dbhome_2' where  
clusternumber=2  
Deploying ADD DATABASEHOME  
Validating Oracle Home..  
Validating ovmutils rpm..  
Validating required files...  
Creating new disk image file..  
Creating disk images on exa0010-dom0.dbahero.com  
Creating disk images on exa0011-dom0.dbahero.com  
Attaching disk image to Virtual Machine exaprd02.dbahero.com  
Attaching disk image to Virtual Machine exaprd01.dbahero.com  
Completed setting up additional Oracle Home on Cluster exaprd  
Configuring database home software, database home cl_DbHome_1  
Relinking database software..  
Completed configuration of database home software  
[/u01/app/oracle/product/12.1.0.2/dbhome_2] on Cluster exaprd  
Done...  
Done
```

- Até a próxima.
